More Than Just Reaching the Summit

Personal coaching, small groups, and authentic mountain adventures based in Voss, Norway.

Hi, I am Rasmus Normann – the founder and lead guide behind Fjellskolen. Living and working in the mountains of Western Norway, I spend my winters and springs guiding skiers through everything from deep fjord-side powder bowls to high-alpine glacial traverses.

> *"The best mountain experiences are about more than just reaching the summit. It's about developing your skills, understanding nature, and sharing the joy of skiing with a great group of people."*

With small groups as a core priority, I focus on personal follow-up, high professional standards, and keeping you safe. Whether we are refining your off-piste technique at Voss Resort or navigating high passes in Jotunheimen, my goal is to show you the most beautiful corners of the Norwegian mountains while giving you the knowledge and confidence to elevate your future adventures.

THE EXPERIENCE

We begin with two days at **Voss Resort**, using the lifts to warm up our legs, refine off-piste skiing technique, and find our rhythm as a group (for those on the 6-day itinerary). From Voss, we board the famous Bergen and Flåm railway lines straight to the historic **Vatnahalsen Hotel**. What makes Vatnahalsen extraordinary is the complete peace: there are no cars and no everyday logistics. We step out the door, put our skis on, and explore untouched peaks. After hunting for the best snow all day, we return to a waffle buffet, a hot sauna with mountain views, and a fantastic dinner. *Ski, eat, sleep – and repeat!*

Day 1 & 2	Lift-accessed off-piste skiing, technical ski coaching, and group rhythm-building at Voss Resort.
